

**Family Housing Resources  
Truly A Resource for Our Community**

FHR was created by the Pima County Industrial Development Authority in 1991 to administer housing programs for low and moderate income households. From fairly humble beginnings, FHR has become one of Arizona's largest providers of housing services.

- FHR has assisted over 15,000 families and individuals become homeowners
- FHR provides housing assistance and homebuyer education at no cost to clients
- FHR has partnered with local jurisdictions as well as the state and federal government to provide housing for lower income households
- FHR works with people facing foreclosure to obtain mortgage modifications
- FHR owns and manages ten apartment communities providing over 1700 households with below market housing

We appreciate your support and it is our sincere hope that our relationship will continue and become even stronger in the coming years.

**FAMILY HOUSING RESOURCES**

*Mission Statement*

*Family Housing Resources, Inc. is a nonprofit 501(C)(3) Arizona Corporation whose primary mission is to assist low to moderate income individuals and families obtain decent, affordable housing.*

**Affordable Housing for the Elderly**

Affordable housing for the elderly is on the way! In 2010 FHR applied to the Department of Housing and Urban Development (HUD) for funding to construct a 43 unit apartment complex for very low income senior citizens on a site near Grant and Silverbell Roads

In 2011, HUD granted the request. FHR is now working with our consultant, Poster Frost Architects and Tofel Construction to design and develop a first class community called Casitas at Silverwood. The plan is to construct single story, patio type homes that provide comfort, convenience and a sense of community for its elderly residents. Residents will pay rent that will not exceed 30% of their income. A property manager will live on site and will provide a connection to a number of services available to low income seniors. The property will include a community center with full kitchen facilities. This will provide a place for residents to congregate and share meals. There will also be an area for a community garden.

FHR hopes to begin construction late this year and be open for business in 2012.
